→ ABOUT EVENT ←

India being one of the fastest growing economies of the world and with fast evolving business and regulatory environment, the food processing sector has immense potential to offer for growth. While offering aplenty of prospects, India has a bright potential to emerge as an outsourcing hub in forthcoming years. Even the global food processing industry looks at India as a recharged economy, with foreign investors beginning to take notice of India as the land of opportunities.

Given the future growth potential and importance of food processing industry in India's economic and social outlook, it is time to take action to unlock the full potential of the food processing industry with a special focus on export markets. Recognising this, **FICCI is organising the 14th Edition of "FICCI FOODWORLD INDIA" at the Lalit Hotel, Mumbai, Maharashtra, India.** This annual flagship event steered by **FICCI's Food Processing Committee** and over the years it has evolved as an established forum for originating thoughts for policy formulation and a mood reflector of the food processing sector.
